How to rock the new colour block

VEGAN RULES!
Four sensational meat-free suppers

BALLY

Shake up your office wear with a colour-block blazer. For extra fashion brownie points, pair with matching trousers.

ACNE STUDIOS

Although the runway version (above) is split to the hips and not overly practical, Acne has also done a more wearable take on this hero skirt.

ISA ARFEN

Go against all the rules and brave colour clashes; red and pink look great together, or try navy and black for a more subtle combo.

JOHANNA ORTIZ

We're predicting big things for the ruffle. Trademark's dress is a great way to tone down this extrovert trend.

BOTTEGA VENETA

Put your best foot forward with colour-blocked shoes. Play with texture and print for maximum impact.
